

**BU/EC205- Introduction to Applied Statistics, Fall 2009**

Amjad Rabi  
arabi@wlu.ca

**Text:** *Statistics for Management and Economics*, eighth edition, Keller, Duxbury Press, 2008. Additional resources can be found on the WEBCT site. **Please bring your text book to every class.**

**Office Hours:** Thursday 2-4 pm. Office: P2045

**Grading:**

Midterm Exam (35%)  
Two Quizzes (7.5% each)  
Two Formula Sheets (2.5% each)  
Final Exam (40%)  
Practical test (5%)

**Syllabus:** Anticipated coverage of the text, subject to change, is as follows:

**Covered on Exam I:** Chapter 1, 2, 3, 4 (4.1-4.4, 4.7-4.8), 5, 6, 7, and 8

**Covered on Final Exam:** Chapter 9, 10, 11 (11.1-11.2), 12 (12.1-12.3), 16, 17, and 18 (18.2)

**Goals:** The goal for this course is to learn, understand and be able to work with descriptive statistics and probability and how and why statistical techniques are applied. This does not only mean that you should be able to work through a bunch of problems similar to ones seen in the homework. But that you should have the ability to articulate the ideas presented in the course in a clear and coherent manner as well. You should also be able to apply a number of different statistical procedures and understand how to use and interpret Microsoft Excel statistical output in ways as it pertains to business and economics.

**Expectations:** You are expected to do most of your learning outside of the classroom. Statistics, like most subjects, is learned by doing it. There will not be time in class for you to do a lot of statistics yourself. If you must miss a class, you are expected to find out what happened. You are responsible for everything that goes on in class.

**Homework:** As the name suggests, this is work to be done outside of class. A few of the homework problems may be worked in class either as examples or quizzes. You are encouraged to work with other students on the homework.

**Exercises covered in the Midterm Exam**

Chapter 2	2.97, 2.99, 2.100, 2.107, 2.109, 2.113
Chapter 3	
Chapter 4	4.83, 4.85, 4.91, 4.93, 4.94
Chapter 5	
Chapter 6	6.87, 6.88, 6.89, 6.95, 6.99, 6.102, 6.103, 6.77, 6.81, 6.82, 6.94, 6.98, 6.100
Chapter 7	7.1, 7.2, 7.5, 7.7, 7.12, 7.20, 7.21, 7.55, 7.70, 7.71, 7.93, 7.97, 7.106, 7.114, 7.116, 7.119
Chapter 8	8.7, 8.8, 8.9, 8.10, 8.54, 8.57, 8.58, 8.79, 8.80, 8.82, 8.83, 8.85, 8.87, 8.90, 8.91, 8.93, 8.95, 8.98, 8.99

**Exercises covered in the final exam**

Chapter 9	9.1, 9.2, 9.5, 9.10, 9.15, 9.16, 9.24, 9.25, 9.38, 9.39, 9.43, 9.44, 9.52, 9.53
Chapter 10	10.9, 10.10, 10.11, 10.31, 10.32, 10.34, 10.37, 10.51, 10.52, 10.54
Chapter 11	11.30, 11.31, 11.32, 11.38, 11.40, 11.42, 11.44,
Chapter 12	12.24, 12.53, 12.67, 12.106, 12.117, 12.119, 12.122, 12.123
Chapter 16	Do these problems in the given order: <ul style="list-style-type: none"> <li>• 16.9, 16.31, 16.53, 16.71</li> <li>• 16.11, 16.33, 16.55, 16.73</li> <li>• 16.12, 16.34, 16.56, 16.74</li> <li>• 16.13, 16.21, 16.35, 16.57, 16.75</li> <li>• 16.15, 16.37, 16.59, 16.77</li> <li>• 16.17, 16.39, 16.61, 16.79</li> </ul>
Chapter 17	17.4, 17.5, 17.7
Chapter 18	18.20, 18.21, 18.22

**Graded Work:** the midterm exam is tentatively scheduled for Tuesday, November 3<sup>rd</sup>, 2009. The final exam will be between December 10<sup>th</sup> and 22<sup>nd</sup>, 2009, the exact date will be determined by the registrar. There will be two quizzes and will be announced in class the week before the quiz takes place.

The Practical test is to be completed in groups of 5-6 and will be taken in class on September 29<sup>th</sup>, 2009. A sheet that contains time slots will be circulated in the first class to choose your group members. The objective of this exam is to test your ability to use Microsoft Excel to solve an assigned problem. I will select only **one** member of the group at random and ask her/him to do the exercise (that means every member has an equal probability of being selected and thus you need to make sure that all members are equally prepared). Each group should not take more than 5 minutes.

Lastly, you are required to develop a formula sheet so that you can use it during the exam. The formula sheet must be turned in at the end of the exam (if you want credit). The allowed paper size is 8.8X11in and you can write (or type) in both sides.

There will be **no make-ups** for missed work.

**Calculator Policy:** All are permitted, no restrictions. Manual calculations will be used to determine descriptive statistics (Chapter 4) and probability (Chapters 6, 7, 8, 9, and parts of 10, 11). **please bring your calculator in every class and during the exams.**

**Microsoft Excel:** This course uses Microsoft Excel for the calculation of most statistics.

**Students with disabilities or special needs** are advised to contact Laurier's Accessible Learning Centre for information regarding its services and resources. Students are encouraged to review the Calendar for information regarding all services available on campus.
